

UPLB / USAID-CRSP Ecologically Based Participatory IPM Project: Status Report for the Period October 2006 to July, 2007

Candida B. Adalla, Aurora M. Baltazar, Nenita L. Opina and J. Lawas, Crop Protection and Crop Science Clusters respectively, College of Agriculture, UP Los Baños, College Laguna, Philippines

PLANS FOR NEXT YEAR

- Produce grafted seedlings for sale at the CA Agripark
- Conduct farmers' training on earwig production
- Continue the conduct of on-farm and Agripark techno demo
- Verify mulching and pruning experiments
- Conduct bioefficacy tests for more entomophagous fungi or bacteria against flea beetles and other problem insect pests (fruitflies).
